How can it help you?

The Attendee

- An advanced search engine makes it possible to view all posters on one station
- The medical and scientific archives are always at hand thanks to their integration with our Event Tool App
- PDF files, videos and images can all be visualised and accompanied by the author's audio recording.

How can it help you?

The Organiser

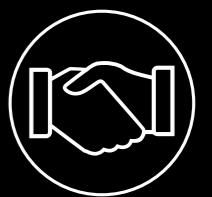

- This paperless alternative to the traditional paper poster brings considerable savings in terms of space and cost.
- A digital space capable of storing an unlimited number of posters either on an online platform or on site
- Enhanced attendee and speaker engagement through interactive functions (Speaker questions, polling system...)

How can it help you?

The Sponsor

- Sponsor visibility is guaranteed throughout, from the personalised platform to personalised totem graphics
- Digital Expo is the version of the totem used for Sponsors. It acts as your company's interactive multimedia showcase within the stand area
- Digital Expo also provides visibility for sponsors who don't opt for a traditional stand due to the space required and costs involved
